Haitham Hachicha

Age: 25 Old
Adresse: Road EL ain km 5.5
City-country: Sfax-Tunisia
Phone: 29221498
E-mail : haithamhachicha@gmail.com

Engineering student

Education

Years: 2016 – Present day   Diploma: Engineering in telecommunication
City-country sfax   University: Institut international de technologie « IIT »

Years: 2012-2016   Diploma: Graduate in electronique and telecommunication
City-country sfax   Univertsity: Enet'com

Years: 2007-2012   Diploma: Highschool science degree
City-country sfax   Highschool: 15 novembre 1955

Language

French: Good
English: Very good
Arabic: Native language

Professional Experience & internship

.**August 2018**   **Primatec,** *Test LIN's stack using python modules*
                       Occupied job: intern(engineer)
                       Tasks: testing the LIN protocol's behavior using
                       Python's scripts

.**July 2017**   **Savia,** *Maintenance and technical job Internship*
                       Occupied job: *Intern*
                       Tasks: Observing, handing out tools,
                       Technical assignment

.**January-June 2015**   **CISEN computer**
                       Job: *End of studies project*
                       Tasks: Using "*Arduino platfo*rm" to develop and realize
                           - Access control system using an RFID module
                           - Intrusion detection system using set of sensors

.**August 2014**   **CISEN computer, Maintenance department**
                       Occupied job : *Intern (technician)*
                       Tasks: computer Repairs and technical assignment,

.**July 2013**   **CISEN computer, Maintenance department**
                       Occupied job: *Intern*
                       Tasks: Observing and technical assignment

Skills

Python, C

Certifecate & Attestation

CCNA 1, 2, 3
Arduino
BEC

Hobbies & matter of interest

IOT, Technology
Sports, Writing
Associative work

Academic & personal Project

2017: *end of year project* (PFA)
        an automatic spray system with Arduino that
uses 2 set of sensors (soil humidity, temperature and
rain sensors) and log history system.

2016: *Wrote a short novel: The boy* (personal passion)

Association & organization

IIT Google cub: 2016-2017
 Active member
Tounes lina association: 2016-2018
 Active member
Tounes lina association: 2018
 Treasurer & team manager
